FYI - Please see attached. It is uncertain how much of that waste/product burned verses ran off-site with the help of the fire suppression (aka copious amounts of water). (b) (6) could you please send me a copy of your compliant report when its available (please and thank you!) Let me know if you have any questions or concerns.

Sincerely,

(b) (6), (b) (7)(C)

Good Afternoon (b) (6), (b) (7)(C),
 Can you provide me with a status update? Has the insurance company moved forward in hiring a cleanup contractor off the State Approved list? Have you been able to get in contact with the leasing companies for that inventory? Let me know if you need any assistance on my end.
 Respectfully,

Thank you very much for your quick response. We will pass this on to our tenants so they can let us know exactly what they had.

Thanks Again

Good Afternoon (b) (6), (b) (7)(C)
 As discussed this morning here is the link to the State Approved Cleanup Contractors,
<http://www.dep.state.fl.us/oer/contractors.htm> . Please have your tenants inventory what approximately was on the property were the

fire was. How many vehicles? How many of those has gas/diesel and about how many gallons? What were in the totes? Any other chemicals that could have been stored in that area. Someone mentioned there was a small tank of Used Oil for vehicle maintenance. Please tell me about how many gallons of oil was in the tank. Once you have an idea of what you are looking at we need to complete the Discharge Reporting Form

http://www.dep.state.fl.us/waste/quick_topics/forms/documents/62-761/761_1.pdf. I will be more than happy to help you fill it out, just let me know.
